# ULTIMATE COLLA-GEN

Beauty comes from within - I keep my skin supple and radiant with **Ultimate Colla-gen**.

Natalia L, 30,  
mother of two

Exposure to the sun and the natural process of aging can cause much damage to our skin. A 2010 study by the University of Toronto, Canada, discovered that carotenoids - found in plants like carrots and tomatoes - protect the plant from UV damage especially when the rays of light from the sun are most intense.

## Ultimate Colla-gen

enhanced formulation with added carotenoids and antioxidants give extra UV protection to your skin.

### Best value in town!
